PROFESSIONAL EXPERIENCE

About Me - **Junior Java Developer with 1+ years of experience. Core expertise in Java, HTML & CSS Full-Stack MERN Development**

Error Makes Clever Academy

Jun 2026 – Sep 2026 | Chennai, India

- Engineered responsive full-stack applications using React.js (Vite), Tailwind CSS, Node.js, Express.js, and MongoDB. Built modular interfaces leveraging functional components, state hooks, and Axios. Architected secure RESTful APIs with JWT-based authentication, managed database schemas using Mongoose, and integrated automated email workflows with Nodemailer. Managed version control via Git for smooth web deployments

---

Developer - Java

Sutrix Group | IT Software Firm

Aug 2022 - Aug 2023 | Chennai, India

CMS Development and Multi-Site Optimization using Adobe Experience Manager (AEM)

- AEM 6.5 CMS, building resuable components using HTL, Sling Models and OSGi services. Strong in JCR structure, CRXDE Lite, editable templates , dialogs and ClientLibs. Developed Author-Publish workflow , replication, debugging and performance optimization
- Designed and implemented custom AEM templates and reusable components to support a variety of page layouts and business requirements

---
